Died in the Asylum.

Mrs. Stanley Rogers, wife of Ike Rogers, died in the Lexington asylum Tuesday evening at 6 o'clock, aged 50 years. Mrs. Rogers became mentally unbalanced two weeks ago and was sent to the asylum for treatment. Mr. Rogers was sent for Monday on account of her serious condition and was at her side when the end came. The body was taken to Rock Springs yesterday and will be buried today. Besides her husband Mrs. Rogers is survived by four living children.

Advantage of Good Roads.

It is to the great advantage of smaller cities and towns to have the farmers' patronage, remarks the Florence Times. But if that is to be secured, one very necessary thing is to have the roads in good passable condition at all seasons of the year. Farmers have been known to avoid towns near at hand but to which the approach is well nigh impassable in wet weather, and go miles further to buy and sell in towns the roads to which are kept in good order. To let roads remain in bad condition because it takes money to improve them is exceedingly poor economy.

The ward in which the Brown-Proctoria Hotel at Winchester is located sought to have a local option election so that a saloon in this building could be placed. The election was held Tuesday and resulted in defeat for the whiskey people by a majority of over one hundred votes.

The constitutionality of the commission form of Government in Kentucky was upheld in a decision of the Court of Appeals, handed down at Frankfort. This law applies only to cities of the second class, and Newport has adopted this new form of government.

Boys, Try Your Best.

The Times is anxious that the boys of Powell county make a success of the Boys' Corn Club. We would like to see the Powell boys capture some State as well as county prizes. Start in now to grow only the largest crops, and when you become men never plow a field until you are sure it will give you good returns on the labor invested. We publish again the list of prizes offered in this county. Read them over, and go to work determined to win one or more of these prizes and also endeavor to secure one of the State premiums.

The Convention.

The Republican Third Railroad district convention now in session at Paris has developed into a very stormy session. Garrett, who leads far in the number of instructed delegates failed by only a few votes to organize the convention but it took the combined forces to defeat him. The outlook now for either Garrett or Craig, the next strongest candidate, is gloomy, though Garrett should win over all the other candidates, and he probably would do so were it not for the strong anti g. o. p. Bradley it is understood being for Garrett.

Judge Hardwick and J. E. Burgher went to Frankfort Friday to appear before the State Board of Equalization in an effort to get the tentative raise of 10 per cent. taken off.

THE END OF TUBERCULOSIS

A Winning Fight.

By DR. WILLIAM OSLER.

This is not a battle of a year or a generation. The probabilities are that it will take two or three generations at least before we have the mortality from tuberculosis reduced to the rate, say, of that of typhoid fever in well regulated countries. This will probably be a matter of two or three generations. Whether tuberculosis will be finally eradicated is an open question. It is a foe that is very deeply entrenched in the human race, but when we think of what has been done in one generation, how the mortality has been reduced in some localities 50 and even 100 per cent, we at least feel that we can continue the battle with hope, and so long as we are fighting with hope the victory is in sight.

Died at Winchester.

James M. O'Rear, who until about one year ago lived at Stanton, died at his home in Winchester Tuesday. The remains were interred in his old home in Montgomery county. He is survived by his wife who was before her marriage a Miss Anderson.

Do Ghosts Haunt Swamps?
No, never. Its foolish to fear a fancied evil, when there are real and deadly perils to guard against in swamps and marshes, hayous, and lowlands. These are the malaria germs that cause ague, chills and fever, weakness, aches in the bones and muscles and may induce deadly typhoid. But Electric Bitters destroys and casts out these vicious germs from the blood. "Three bottles drove all the malaria from my system," wrote Wm. Fretwell, of Lucama, N. C., "and I've had fine health ever since." Use this safe, sure remedy only. 50c at Swann Day Lumber Co.'s store.

Made a Big Profit.
In January a piece of property was sold by Commissioner Romulus Jackson the same not having been advertised in the Clay City Times and for this reason the sale was set aside, and was duly advertised and sold at Commissioner's Sale at Stanton Monday and brought \$375 more than it sold for in January when it was not advertised. Thus you see it pays to advertise under all conditions.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. Roads Still Bad.
The roads with so much rain that we have been having are worse in this county than any time in March, two months ago, and every farmer and team is too busy to help make them better. At this juncture it seems impossible to improve the roads, but how about last winter when we were not so busy and how will it be this fall when there is a leisure period? Remember that April and May when we frequently have the worst roads it is also the worst time to improve them. Let's be forming more Good Roads Associations now and do the work later, but be certainly sure that the work is done at the proper time.

Saved Child From Death.
"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctor's medicine seemed as useless. Finally we tried Dr. King's New Discovery, and are pleased to say that one bottle effected a complete cure, and our child is again strong and healthy." For coughs, colds, hoarseness, lagreppie, asthma, croup and sore lungs, its the most infallible remedy that's made. Price 50c and \$1.00. Trial bottle free. Guaranteed by Swann-Day Lumber Co.

WASHINGTON NOTES.

(BY CLYDE B. TAVENNER.)

Dorsey W. Shackelford, of Missouri, a member of the Ways and Means committee of the House, has prepared one of the most illuminating letters on the subject of reciprocity that has appeared. The document has caused much discussion among members of Congress and is to be widely circulated.

"The lumber trust and the paper trust are waging a fierce fight against reciprocity," says Mr. Shackelford. "They are making desperate efforts to get the farmers to join them. Wherever possible they have enlisted the papers which circulate among the farmers. They try to make the farmers believe that, by reason of the tariff, he gets more than the fair market for his products."

"Canada has a tariff which operates against our products sold in Canada. We have a tariff which operates against Canadian products sold here. Reciprocity is an agreement between the two countries to modify both tariffs with a view to more extended trade."

"A large trade has grown up between us and Canada. In five years ending June 30, in goods of all kinds

You ask why Canada favors reciprocity if it is to give us the best of it on these products. The answer is easy:

"First, the Canadian tariff is added to the price which the Canadian consumer must pay. Canada desires to relieve her people from this extra price."

"Second, Canada is willing to take her tariff off of the goods which we sell her if in turn we will take our tariff off of the proper, wood pulp and lumber which she sells us. If our tariff against these products were removed she would sell us a still larger amount of timber products than she now sells us. How could that hurt the American farmer?"

"Who then, would be hurt by reciprocity? I will tell you. The lumber trust and the paper trust. Reciprocity would bring Canadian lumber and paper here to be sold in competition with the American lumber and paper. This would give the American people cheaper paper, and the farmer cheaper lumber to build houses and barns. So you see why it is the trusts are making such frantic efforts to defeat reciprocity. They desire to hold a monopoly of the American lumber and paper markets. Let the farmer be of good cheer. He is not the fellow who will be hit by reciprocity. He will be helped. The lumber trust and the paper trust are the ones who will feel the weight of this measure."

President Tatt is still fighting progressive Republicans. He first endeavored to smother progressivism by refusing patronage to members of Congress who would not vote for bills recommended by him whether they thought them to be for the public good or not. This movement failed utterly. Insurgency increased instead of disappearing. Then the President used all the influence at his command to bring about the defeat of Senator LaFollette in Wisconsin. LaFollette was re-elected by a larger vote than ever. Now the President is taking the leading part in the fight against giving the progressives of the Senate the committee places they demand. Inasmuch as the President's former efforts caused two progressives to grow where but one had grown before, the progressives can afford to be patient.

Practically the only change made in the Canadian reciprocity agreement by the Democrats in the House was the addition of a clause authorizing the President, by executive act, to reduce the tariff of this country, on any item, whether included in the treaty or not, whenever Canada is willing to put them on her free list. In other words we express a willingness to move toward free trade with Canada as fast as Canada may desire. This invitation applies only to Canada, however, and the object is the promotion of the friendliest possible commercial intercourse between the United States and

our neighbor on the north.

The income tax amendment to the constitution, which was a plank in the last Democratic national platform, has now been ratified by thirty states. To insure its acceptance thirty-five states are necessary. Only four states—Louisiana, New Hampshire, Rhode Island and West Virginia have declared themselves in the negative. This leaves twelve states from which to secure the necessary live votes to make the amendment a part of the constitution. An income tax is practically assured.
